

Semi-Antique and Antique Carpets
that make a house feel like *a home*.

"You are cordially invited to view my magnificent collection of used, semi-antique and antique Persian and Decorative rugs. From scatter sizes to mansion sizes, my selection stems from more modern Herizes to antique Ferrehans and Serapis. The palette is grand with carpets stemming anywhere in age from twenty to two hundred years old... all genuine works of art in their own way."

— Fred the Rug Man
