

WE DON'T TAKE OUR DELIVERY COMMITMENTS LIGHTLY.

Even the sweetest deal on bearings can go sour in a hurry if you have to shut down production because the bearings aren't there when you expect them.

The Timken Company doesn't buy that kind of selling. We don't believe in taking

orders for bearings we might not be able to deliver.

We do believe in doing whatever it takes to meet our delivery commitments.

Don't just take our word for it. Challenge us.

Then watch us deliver.
